+918200255249

Experienced Flutter Developer with 2 years of expertise in Android and iOS app development using Flutter.

Proficient in GetX route management, API integration, with expertise in optimizing app performance and ensuring smooth user experience.

Eager to contribute to innovative projects and deliver exceptional user experiences.

Personal Details

Date of Birth: 2003-05-15

Highest Career Level: 2-5 years' experience

Total years of experience: 2

LinkedIn Profile: <https://www.linkedin.com/in/rishi-akbari-584a40222>

Work Experience

Flutter Developer

Ark Infosoft-Ahmedabad, Gujarat

Full-time

0-15 days' notice period

January 2024 to Present

As a Flutter Developer, I collaborate on feature implementation, conduct code reviews, and contribute to high-quality mobile applications.

Eager to learn and grow within a dynamic team environment.

Education

Bachelor's degree in Computer Engineering in Computer Science

MBIT - CVM University - Anand, Gujarat

Skills

- Custom widget development
- Clean Architecture (MVVM)
- App Deployment
- Git
- GitHub
- X-Code
- Debugging
- RESTful APIs Integration
- My SQL
- Dart

- Flutter
- Firebase
- Java
- Java Scripts
- Cross-platform Development.

Projects / Papers Presented

Doctor Diary

<https://play.google.com/store/apps/details?id=com.arkinfosoft.mediplus>

Efficient Patient Management:

The primary purpose of the "DOCTOR DIARY" app is to facilitate efficient management of patient records, appointments, and medical history. By providing a centralized platform for storing and accessing patient information, the app aims to streamline administrative tasks for healthcare providers and improve overall clinic efficiency.

Enhanced Communication:

Another purpose of the app is to enhance communication between patients and healthcare providers. Through features such as secure messaging and real-time notifications, patients can easily communicate with their doctors, schedule appointments, and receive important updates regarding their healthcare.

Improved Accessibility:

The app aims to improve accessibility to healthcare services by providing a patient portal accessible via web and mobile devices. This allows patients to conveniently schedule appointments, request prescription refills, view medical records, and participate in telemedicine consultations from the comfort of their homes.

Optimized Appointment Management: The app's purpose extends to optimizing appointment management and resource allocation within medical facilities. By employing advanced scheduling algorithms, the app helps clinics efficiently allocate doctor's time, examination rooms, and medical equipment, reducing wait times for patients and maximizing clinic productivity.

Data-driven Insights:

Additionally, the app aims to provide data-driven insights to healthcare providers, allowing them to analyze patient data, identify trends, and make informed decisions regarding patient care. By leveraging analytics and reporting features, the app empowers healthcare providers to deliver personalized and effective healthcare services.

Atura Care

<https://play.google.com/store/apps/details?id=com.arkinfosoft.aturacare>

Patient Management:

Efficiently manage patient information. Access patient profiles for personalized care.

Treatment Recording:

Record and track patient treatments. Capture essential details like height, weight, blood pressure, symptoms, and disease information.

Treatment History Access:

Doctors can view the treatment history of their patients. Accessible records aid in informed decision-making and continuity of care.

Push Notification Reminders: Automated push notifications for appointment reminders. Alerts patients about scheduled appointments and medication timings for enhanced adherence.

Prescription Download Capability: Doctors can generate and download prescriptions for patients. Enables easy access to treatment plans and medication details.

Atura Care Integration:

Patients can access all details through the Atura Care app. Seamlessly view appointment schedules, treatment history, and doctor profiles for improved engagement and transparency.

Paintastica

<https://play.google.com/store/apps/details?id=com.art.paintastica>

Founded **Paintastica**, an online learning community designed to help people of all ages explore and enhance their creativity.

Offers **personalized art workshops** ranging from basic to advanced levels for both **kids and adults**.

Built a **cross-curricular learning approach**, ensuring engaging, skill-based, and age-appropriate lessons.

Provides interactive classes across multiple creative subjects including:

Calligraphy, Coffee & Canvas Painting, Chocolate Making, Cake Baking & Decoration,

Crafts (Cards, Scrapbooks, Explosion Boxes), Candle & Flower Making, Fabric & Glass Painting,

Knife Painting, Decoupage Art, Drawing Classes, and more.

Aims to empower learners to **discover their artistic potential**, find inspiration, and take the next step in their creative journey.

Encourages **community engagement and creativity**, connecting artists, students, and hobbyists under one digital platform.
